## WORK EXPERIENCE

---

### Technical Club Member

April 2024 - Present

As a member of a technical club at VIT-AP University , I have acquired technical skills needed for my career as well as communication skills for team management . Through this, I refined skills in coding and leadership .

## PROJECTS

---

### Event-Countdown

[Project](#)

Event-Countdown is a web platform in which users can be able to set the dates .In this users are notified if the date they set is reached.This makes the people easy to remind the dates they marked . Here we need to give the date month year and time . It is an engaging application designed to display the remaining time until a specific event occurs. It is commonly used for educational purposes, product launches, birthdays, holidays, or any significant upcoming event..
